

# The Local Government Pension Scheme (England and Wales)

Use of accumulated AVCs to provide additional pension under the Scheme

Date: 6 April 2009

Author: Ian Boonin

## 1 Introduction and Legislative Background

- 1.1 Regulation 26 of the Local Government Pension Scheme (Administration) Regulations 2008 ("the Administration Regulations") (SI 2008/239) provides an opportunity for a member to use the accumulated value of his AVCs to provide a pension under the Scheme. A member who leaves his employment with entitlement to the immediate payment of retirement benefits may elect for the accumulated value of his AVCs to be used to provide additional pension under the Scheme. Regulation 26(5) provides that a member who has made such an election shall become entitled to such additional pension as is shown in guidance issued by the Government Actuary. The purpose of this note prepared by the Government Actuary's Department is to provide the guidance required by Regulation 26(5). The note has been prepared for Communities and Local Government (CLG) and is issued to them for onward transmission to administering authorities and employing authorities.
- 1.2 This guidance does not cover elections under Regulation 66(8) of the Local Government Pension Scheme Regulation 1997 ("the 1997 Regulations") made by members who made an election under Regulation 60(1) of the 1997 Regulations prior to 13<sup>th</sup> November 2001.

### 2 Calculations

- 2.1 The tables attached to this note provide factors which show the additional pension to the member for each £100 of accumulated AVCs, according to age at the date the member becomes entitled to the immediate payment of retirement benefits or, if later, the date the member makes an election under Regulation 26(4) of the Administration Regulations.
- 2.2 Table 1 applies to members who become entitled to the immediate payment of retirement benefits under Regulation 16 (normal retirement), 17 (late retirement), 18 (flexible retirement), 19 (redundancy etc) or by virtue of an election under Regulation 30 (early payment) of the Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations 2007 ("the Benefits Regulations").
- 2.3 Table 2 applies to members who become entitled to an ill-health pension under Regulation 20 or 31 of the Benefits Regulations. Table 2 factors for members under age 30 will be provided by the Government Actuary's Department on request.
- 2.4 Separate factors are provided for men and women. A member must choose whether to purchase dependants' benefits or not when making an election. The factor used to calculate the amount of pension depends on the choice that the member makes.
- 2.5 Pension previously acquired under Regulation 66(5) of the 1997 Regulations always includes benefits for a surviving spouse, civil partner or nominated cohabiting partner, as described in the guidance issued under that regulation. However, they do not provide benefits for surviving children.

## 3 Benefits purchased

- 3.1 The additional pension is payable from the date used in the calculation. Increases after the date of commencement should be granted, on the portion of the member's pension in payment awarded under this Regulation, at the same time and at the same rate as the pension increases on the rest of the member's scheme pension.
- 3.2 The benefits provided to a member awarded additional pension are not fully specified in the regulations. However, CLG have confirmed the details of additional pension benefits described below which are in the same form as the additional pension provided under other regulations.
- 3.3 A member will receive the following benefits:

#### Own benefits

- 3.4 The total pension awarded will be increased by the rate of additional pension purchased.
- 3.5 The additional pension may be not commuted for cash. If a member wishes to take some of his AVCs as a lump sum that part of the fund should not be converted to scheme pension.
- 3.6 On death in retirement a lump sum equal is payable equal to ten times the annual rate of additional pension in payment before death, less the amount of additional pension already paid.
- 3.7 The additional pension is increased with reference to PI while in payment.

### Dependants' benefits

- 3.8 If a member opts to purchase dependants' benefits as well as own benefits, then the following additional benefits will be paid on the death of the member.
- 3.9 The additional spouse, civil partner or nominated cohabiting partner's pension is 37.5% of the rate of additional pension purchased.
- 3.10 The child's additional pension is 18.75% of the member's additional pension if there is one eligible child. If there are two or more eligible children then the total children's pension awarded is 37.5% of the member's additional pension and is shared equally between the eligible children.
- 3.11 If there is no pension paid to an eligible spouse, civil partner or nominated cohabiting partner, then the additional child's pension is 25% of the member's additional pension if there is one eligible child. If there are two or more eligible children then the total additional pension awarded is 50% of the member's pension and is shared equally between the eligible children.

3.12 The rate of the dependant's additional pension is increased before it comes into payment with reference to the PI as for a member's pension. Once in payment, the dependants' additional pension is increased with reference to PI.
